

BOARD OF MANAGEMENT – MULTAN INDUSTRIAL ESTATE

PLASTIC FREE PAKISTAN

DON'T PACK THE BLUE PLANET WITH POLYTHENE

SAY NO TO PLASTIC POLLUTION

#d2w PAKISTAN #LITTER FREE PAKISTAN

Business dynamics is always committed towards a green environment by providing biodegradable bags. The industries should believe in preserving the environment through the latest technologies.

The addition of d2w at only 1% can convert ordinary plastic into biodegradable and save the environment from hazards of plastic pollution.

D2w additive is the only additive that complies international standards ASTM D6954 for its degradation, biodegradation, and ecotoxicity.

Use d2w and move towards a GREENER World.
